

# Overview

## Our Story

**In 1977, Erie Meats was a 15,000 square-foot primary processing plant in Toronto's meat packing district.**

Today, we're one of Canada's largest meat processors. We have a hotdog line the length of two football fields, an R&D kitchen that's larger than the entire cooking facility at some processors and warehouses across the country.

Over 750,000 sq.ft of manufacturing and warehouse facilities

## What We Do Best

**Working with Erie offers the best of big and small.**

The capabilities of a multinational food processor and the mindset of a privately held family business.

### **Our Expertise Includes:**
